SUMMARY

Fresh Graduate in Instrumentation Engineering (Diploma III, GPA 3.50) from Politeknik Negeri Batam, currently working as a Maintenance Technician at Schneider Electric, handling troubleshooting and repair of the electrical and automation control systems of auto screw machines. Hands-on experience in medium-voltage electrical maintenance, electrical installation, control panel assembly and wiring, industrial automation, and electrical testing, gained through vocational internship (PKL) during vocational high school and two industrial internships during college. Skilled in 3-phase motor testing and commissioning, insulation resistance and transformer testing, electrical troubleshooting, wiring diagram interpretation, and basic PLC programming (Omron). Open to Electrical, Instrumentation, PLC/Automation, or Control Engineering/Technician roles, including E&I QC track.

WORK EXPERIENCE

Maintenance Technician July 2026 - Present
PT Schneider Electric Manufacturing Batam

- Troubleshoot and repair the electrical and automation control systems of auto screw machines and other production equipment.
- Diagnose electrical and control system faults (sensors, wiring, control panels) to restore machine operation and minimize downtime.
- Perform hands-on corrective maintenance focused on electrical and automation control systems across production line equipment.

Asst. QC E&I - Industrial Internship January 2026 - April 2026
PT Barda Multi Solution

- Performed field maintenance and testing of clients' medium-voltage distribution transformers (10-150 kVA) across multiple industrial sites in Batam.
- Conducted Insulation Resistance Test, Winding Resistance Test, and Transformer Turns Ratio (TTR) testing, plus thermovision inspection for hotspot detection.
- Carried out transformer oil testing, analysis, and replacement per IEC 60296 standards.
- Applied K3 safety procedures and handled material handling for maintenance equipment/components.

Assistant Engineer - Internship Program August 2025 - January 2026
PT Nazyrar Mutiara Powerindo

- Assisted in electrical installation for UPS, battery bank, and laboratory electrical systems.
- Installed battery bank systems according to technical specifications.
- Performed cable pulling, routing, termination, and cable management.
- Conducted electrical testing and verification to ensure compliance with technical standards.
- Assisted in lighting system installation and inspection.

Electrical Technician - Industrial Internship June 2022 - March 2023
PT Djitoe Mesindo Batam

- Assembled and installed electrical control panels for MK-9 machines, completing more than 10 panel units.
- Performed commissioning and testing of 3-phase motors using multimeter and phase sequence tester to ensure correct rotation.
- Identified and corrected 3-phase motor phase rotation through phase swapping.
- Conducted voltage testing and verification on electrical panels to ensure compliance with specified voltage requirements.

EDUCATION

Diploma III (D3) in Instrumentation Engineering August 2023 - June 2026
Politeknik Negeri Batam, Batam City • GPA: 3.50/4.00

Industrial Automation Engineering July 2019 - May 2023
SMK Negeri 1 Batam, Batam City • Score: 75.91/100

SKILLS

- Electrical Control Panel Installation & Wiring, 3-Phase Motor Testing & Commissioning, Voltage Testing & Verification, Electrical Troubleshooting (Multimeter, Phase Sequence Tester)
- Medium-Voltage Equipment Maintenance: Insulation Resistance Test, Winding Resistance Test, Transformer Turns Ratio (TTR) Test, Thermovision Inspection, Transformer Oil Testing (IEC 60296)
- Basic PLC Programming (Omron CX-Programmer), Electro-Pneumatic Systems, Proximity Sensor Installation & Configuration

- Cable Management (Pulling, Routing, Termination), Wiring Diagram Reading, Basic AutoCAD Electrical, K3 Safety Procedures & Material Handling
- Soft Skills: Problem Solving, Attention to Detail, Teamwork, Adaptability, Ready for Shift Work

CERTIFICATIONS

Industrial Automation Engineering - BNSP
Certificate No.: 24131 2410 0001282 2022 | Valid: June 2022 - June 2025
